A

- **Academia–community relationships**
  - community-based interprofessional health professions course, 334
  - community-engaged scholarship, 317
  - fostering civic professionalism in tomorrow's doctors, 413
  - integration of academic medical center and community hospital, 253
  - interuniversity partnerships and community-based research to address health disparities, 1039
  - making a home in community for academic medical centers, 57
  - partnership between community-based organization and academic health center, 327
  - teaching professionalism within community context, 339
  - value of community involvement by academic health center faculty, 322
  - what community-based education can teach tomorrow's doctors, 315
  - will the urban university medical center join the community? (1970), 365
- **Academic health centers.** *See also* Medical Schools; Residency programs
  - building research administration applications for, 1032
  - development of data warehouse at, 1019
  - disease burden in managed care population at an academic medical center, 587
  - effective organizational control, 1054
  - faculty recruitment in
    - allocating central funds for, 218
    - generation X and, 205
  - financial benchmarks for research mission in, 211
  - impact of recent changes in Medicare reimbursement on teaching hospitals, 1069 (Correction, 1142)
  - influence of teaching setting on medical students' clinical skills development, 1153
  - managing knowledge and technology to foster innovation, 1026
  - pediatric faculty members' attitudes about part-time faculty positions and policies, 931
  - promoting translational research in, 1012
  - redesigning clinical education: a major challenge for academic health centers, 615
  - reinvention of, 980
  - relationship of insurance status, hospital ownership, and teaching status with interhospital transfers in California, 774
  - replacing the academic medical center's teaching hospital, 990
  - responsibly managing the medical school–teaching hospital power relationship, 690
  - sustaining biomedical research, 203
  - transcontinental affiliation between, 1046
  - universities and people's health (1941), 43
- ***Academic Medicine***
  - acknowledgment of 2004 reviewers, 5
  - changes at the journal, 3
  - more about the journal's new direction, 971
  - most frequently accessed articles, September 2003–2004, 7
  - new "Did You Know?" feature, 616
  - new goal for the journal, 515
  - staff change, 204
- **Academies of educational excellence,** 358
- **Accreditation Council for Graduate Medical Education (ACGME).** *See also* Competency
  - requirements for geriatrics medicine curricula, 279
- **Advanced cardiac life support,** comparison of two standard-setting methods for training, Oct. Suppl S63
- **Advocacy**
  - faculty's and residents' perceptions of teaching and role of health advocate, 103
  - health advocacy, Oct. Suppl S38
  - Health Policy and Legislative Awareness Initiative at Pennsylvania State University College of Medicine, 443

- **Anatomy**
  - cadaver dissection and radiologic imaging in teaching anatomy (viewpoint), 745
  - importance in health professions education and shortage of qualified educators, 349
- **Appalachian Preceptorship Program,** 717
- **Arnold P. Gold Foundation humanism in medicine essays,** a medical experience that taught me about humanism in medicine, 1066, 1067, 1140, 1141
- **Assessment**
  - comparison of physician examiners and trained assessors in high-stakes OSCE setting, Oct. Suppl S59
  - contextual considerations in summative competency examinations, 1133
  - defining competency-based promotion criteria for family medicine residents, 832
  - factors affecting resident performance: theoretical model and literature review, 376
  - failure to fail: perspectives of clinical supervisors, Oct. Suppl S84
  - feasibility, reliability, and validity of a program director's evaluation form for medical school graduates, 964
  - forecasting residents' performance—partly cloudy, 415
  - hmmm. . . who was that student?, 823
  - improved patient notes from medical students during Web-based teaching using faculty-Calibrated Peer Review and self-assessment, Oct. Suppl S67
  - improving resident performance assessment data, 489
  - incorporating simulation technology in a Canadian internal medicine specialty examination, 554
  - influence of group discussion of student clerkship performance at Education Committee on individual committee member's decisions, Oct. Suppl S55
  - maximizing participation in peer assessment of professionalism, Oct. Suppl S1
  - measuring effectiveness of faculty mentoring relationships, 66
  - medical students' performance ratings as documented on in-training evaluations, 309
  - national study of medical student clinical skills assessment, Oct. Suppl S25
  - psychometric characteristics and response times for one-best-answer questions, Oct. Suppl S93

psychometric properties of scoring methods applied to Script Concordance Test, 395
relationship between NBME prototype of Step 2 clinical skills exam and interns' performance, 496
self-assessment in health professions, Oct. Suppl S46
using factor analysis to evaluate checklist items, Oct. Suppl S102
Attitudes of students, faculty
changing medical students' attitudes about older adults, Oct. Suppl S6
educational views, attitudes, and career goals of MD–PhD students, 193
international survey of medical students' attitudes toward "holism," 955
pediatric faculty members' attitudes about part-time faculty positions and policies, 931

B

Baylor College of Medicine, cover note, 355
Brazil, compliance with Common Program Requirements in, 98
Brigham and Women's Hospital
integration of academic medical center and community hospital, 253
use of electronic medical record to profile continuity clinic experiences of primary care residents, 390

C

C^3 Instrument, patient-centeredness of hidden curricula, 44
Cadaver dissection, and radiologic imaging in teaching anatomy (viewpoint), 745
Career choices
career plans for trainees in internal medicine residency programs, 507
educational views, attitudes, and career goals of MD–PhD students, 193
influence of controllable lifestyle and sex on specialty choices of graduating U.S. medical students, 791
influence of lifestyle and income on medical students' career specialty choices, 809
specialty choice and gender of U.S. medical students, 797
U.S. medical students' debt and choice of primary care careers, 815
who's going to take care of the folks?, 789
Case-based conferences, 904
Children. *See* Pediatrics
Chronic illness
illness in context and families as teachers, 448
medical students' perspectives on care of chronically ill patients, 183
transition to adult care of patients with childhood-onset chronic illnesses, 352
Cincinnati Children's Hospital Medical Center
online master's degree in education for health professionals, 141
pediatric faculty members' attitudes about part-time faculty positions and policies, 931
Translational Research Initiative, 1012
Clinical academicians, who's watching out for? (viewpoint), 905
Clinical clerkship
computer-assisted learning program for pediatrics clerkship, 847
curriculum to promote comparative and reflective analysis in internal medicine clerkship, 84
hmmm. . . who was that student?, 823
influence of group discussion of student clerkship performance at Education Committee on individual committee member's decisions, Oct. Suppl S55
learning/feedback activities and high-quality teaching: perceptions of third-year medical students, 950
participation of internal medicine department chairs in internal medical clerkship, 479
perceived impact of resident work hour limitations on medical student clerkships, 752
specifying student–patient encounters, Web-based case logs, and meeting standards of the Liaison Committee on Medical Education, 1127
third-year medical students' experiences with dying patients during internal medicine clerkship, 641
Clinical Health Economics System Simulation, 129
Clinical reasoning. *See also* Decision making
does MCAT predict clinical reasoning skills?, Oct. Suppl S14
role of basic science knowledge and clinical knowledge in diagnostic reasoning, 765
role of biomedical knowledge in, 945
shift in teaching clinical skills to medical students (viewpoint), 1121
Clinical settings
beliefs of primary care residents regarding spirituality and religion in clinical encounters with patients, 560
influence of teaching setting on medical students' clinical skills development, 1153
interns' participation and learning in New Zealand hospital, 302
patient-centered communication technique, 29
precepting humanism, 21
quality of care in primary care internal medicine residency clinic, 571
residents' patient-specific clinical questions, 51
teaching psychosocial care, 8
Clinical skills. *See also* Performance
construct validity of computer-based outcome measure of neurology clinical skills, Oct. Suppl S71
emotional intelligence and, Oct. Suppl S34
evaluating clinical simulations for learning procedural skills, 549
influence of teaching setting on medical students' clinical skills development, 1153
national study of medical student clinical skills assessment, Oct. Suppl S25
personality and, Oct. Suppl S30
promoting fundamental clinical skills, 423
relationship between NBME prototype of Step 2 clinical skills exam and interns' performance, 496
shift in teaching clinical skills to medical students (viewpoint), 1121
Clinical trials
industry-sponsored, professional integrity in (viewpoint), 899
